GACA Awardees’ Insights

• Use the NOFO as your scaffolding
• Don’t be creative with wording
• Don’t overpromise (you will have to do it…)
• Write peer-mentoring into your GACA
• Build flexibility into your application. It’s hard to plan for 4 years.
• Use your mentor well
• Follow the HRSA directions closely and submit application prior to deadline
• Track everything well (# and type of learners!)
• Present & publish!
• Plan for promotion during your GACA!
Unsuccessful Elements

• Institutional changes
• Choosing training/coursework that doesn’t advance your professional development
• Not including training that could have advanced goals
• Taking on too many tasks
• Inadequate networking
• Capturing all the work done/reporting
• Lack of interprofessional education
Challenges with the Grant (once you have it!)

• Reporting requirements (long progress reports)
• Mandatory participation in all monthly calls
• Changes in GACA plan require prior approval
• Cannot transfer the award to another institution
• Grant funds may not match inflation/salary increases
JUST DO IT.
